## The Return Report: Salone del Mobile 2023

Salone del Mobile 2023 took place between 18th April to 23rd April this year, and like each edition, design professionals and aficionados flocked to Milan this time around too. The yearning for Salone del Mobile 2023, after a three-year long hiatus, was palpable. Even on day 2 of the event, the train ride to the Rho Fiera halls was filled to capacity – people stood shoulder-to-shoulder without any complaints. From team Love That Design, Siddharth Peters visited the city celebrating design for two short days, and returned with industry insights and an unshakeable cold (courtesy of being unprepared for the downpour on day 3 of the event).

[Yo2 Designs](#) collaborated with Estúdio Campana at the Salone del Mobile 2023 exhibition, to display a distinctive rug named “Folia”. The rug portrays a depiction of the present-day world and the craziness that surrounds us. It reflects the absence of consideration for the planet, where individuals exploit the earth, causing damage to the environment.
